The diagram illustrates a network of dependencies between parts of speech (DET, ADJ, NN, V) and specific words (John, might, wash). The values in the cells represent probabilities or weights. The cells for NN 'John' (0.03), V 'might' (0.003), and V 'wash' (0.00009) are highlighted with thick borders. Arrows indicate dependencies: an arrow from ADJ 'might' to NN 'John', an arrow from NN 'wash' to V 'might', and an arrow from V 'wash' to V 'might'.
